

SAFEGUARDING

Traffic Action Group- A262 Child Safeguarding Statement

As a community-based group of volunteers, we recognise the importance of involving children and young people in their community and welcome their involvement. We also recognise our responsibility to keep children and young people safe. We have therefore developed the following safeguarding statement. Please read carefully if you are an adult wondering about how young people can get involved, or a young person under 18 wishing to become involved.

Accompanied children and young people: We welcome accompanied children and young people of all ages at any event. They should remain the responsibility of the parent or carer accompanying them.

School groups and clubs: We can organise events and activities for organised groups such as schools, youth clubs or Scouting Association groups. In this case the children or young people remain the responsibility of the organisation. Please contact trafficactiongroupa262@gmail.com to discuss.

Unaccompanied young people: As small community action group we are unable to meet minimum safeguarding requirements for **unaccompanied** young people.
